SUMMARY

Full Stack Web Developer with 1 year of hands-on experience through professional internships in full stack and backend development. Skilled in React.js, Node.js, Laravel, and RESTful APIs, with experience building secure, scalable, and responsive web applications. Proven ability to develop authentication systems, admin panels, and database-driven solutions. Strong understanding of clean code practices, performance optimization, and modern development workflows. Seeking a junior-level role to contribute technical expertise in a growth-oriented team.

WORK EXPERIENCE

Full Stack Developer Intern

Apexcify Technologies | 2025

- Developed full stack web applications using PHP (Laravel), JavaScript, HTML, CSS, and Bootstrap.
- Built responsive UIs and integrated backend APIs.
- Implemented authentication, CRUD operations, and basic role-based access.

Backend Developer Intern

Syntecxhub | 2025

- Developed RESTful APIs using Node.js and Express.js.
 - Implemented JWT-based authentication and middleware-secured routes.
 - Managed MongoDB schemas, CRUD operations, and file uploads using Multer.
 - Tested and documented APIs using Postman.
-

Projects:

- **Inventory Management System (PHP)**
Stock management system with product CRUD, inventory tracking, and admin controls.
- **QuickSMS System (PHP)**
SMS broadcasting system with admin panel, user management, and bulk messaging features.
- **QuickBooks CMS Panel (Laravel)**
Financial data management system with role-based access and REST API integration.
- **QuickLaptop Website (PHP)**
Dynamic product-based website with admin management and responsive UI.
- **WordPress Business Websites**
Developed responsive business websites using custom themes and plugins.
- **Food Ordering System (Laravel)**
Food ordering system with secure authentication, menu management, order tracking, and admin dashboard.
- **Social Media Web Application (React + Node.js)**
JWT-based authentication with posts, likes, comments, and RESTful APIs using MongoDB.

- **E-Commerce Website (MERN Stack)**
Product listing, cart, checkout system, and admin panel with secure backend APIs.
 - **Custom WordPress World Clock Plugin**
Custom plugin to display real-time global times using PHP, JavaScript, and WordPress hooks.
 - **Corporate & Portfolio Websites**
Responsive corporate and portfolio websites using HTML5, CSS3, Bootstrap, and WordPress.
-

ADDITIONAL PROJECT

Python Computer Simulation

- Developed a simulation model using Python, NumPy, Pandas, and Matplotlib.
 - Built modular code and visual reports to analyze system behavior.
-

TECHNICAL SKILLS

Frontend: HTML5, CSS3, SASS, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend: PHP (Laravel), Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Technologies: WordPress, REST APIs, JWT Authentication, Multer, GitHub

Other Skills: Responsive Design, UI/UX Principles, Performance Optimization, API Integration.

EDUCATION

Bachelor of Computer Science

Virtual University of Pakistan | 2021 – 2025

Intermediate

Degree Girls College | 2020
